

The PNIRSA**Asia-Pacific** committee was once again invited by Professors Jane (Pay) Pei-Chen Chang, Hue-Chih Chang and Kuan-Pin Su to their 10th annual Mind-Body Interface symposium. Michael Irwin, a past-president of PNIRS, was honored as a keynote speaker. Eight other professors from five different countries represented PNIRS by presenting lectures at this virtual conference. Despite the challenges presented by the covid19 pandemic, the conference successfully permitted these and all other speakers from both the East and West to present their newest data. Thanks to all for their time and service. The organizers are already beginning to plan next year's MBI conference. Consider adding this meeting to your conference schedule next year.
